

EMIFE AUSTIN

FULL STACK SOFTWARE DEVELOPER

Dubai, UAE

hello@emifeaustin.dev | www.emifeaustin.dev | +971551994544

Dear Hiring Manager,

I am writing to express my interest in software development opportunities within your organization. As an IBM Certified Full Stack Software Developer, I bring a strong foundation in React, Node.js, Python, Django, Flask, and cloud platforms such as Docker and Kubernetes. My experience spans building scalable full stack applications, developing automation workflows, and integrating AI driven solutions.

In addition to my technical expertise, I am a detail oriented problem solver and strong communicator, skilled in collaborating across teams to deliver efficient, user cantered solutions. My projects include a Car Dealership Full Stack Application (graded 97%), I am currently working on an AI Trading Bot with profitability optimization benchmarks, and an AI Chatbot that automated 60% of technical workflows. These hands-on experiences have strengthened my ability to design, build, and deploy practical solutions that add measurable value.

I am particularly drawn to opportunities that allow me to continue learning, while applying my skills to create impactful digital solutions. With my mix of technical knowledge, adaptability, and passion for innovation, I am confident in my ability to contribute effectively to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background and skills can support your organization's goals.

Sincerely,
EMIFE AUSTIN
